

WHAT IS FLEX SINGLES?

If you enjoy playing singles or are interesting in meeting new tennis friends with similar interests, the USTA PNW's Flex Singles leagues are for you!

Throughout the year, you will find PNW tennis players out on the courts playing our Flex Singles League. These fun leagues are especially great for players with weekend commitments that limit their availability to play other USTA League or tournament matches. Flex Singles matches are set up at times that are convenient for the players. Does lunchtime tennis or after work tennis sound good to you? That is one of the great aspects of Flex Singles...you and your opponent work out the time and place to play.

Each "team" in Flex Singles is just one person...you! You simply register for your level, select your home court, and wait for the Regional League Coordinator to work up a tentative match schedule. Then you are off and running to start playing some fun singles.

If you are curious about Flex Singles or want to find out when the next season starts in your region, visit the PNW League website [HERE](#) and check out the league calendar for you region.

Get your friends to join along with you and enjoy a fun season of Flex Singles! ■
